

KRITTAPAD DEJJEENMUANG

Production Development / QC Coordination / 3D Production Background

089-118-6962 | krittapad@outlook.com | linkedin.com/in/krittapad

PROFESSIONAL SUMMARY

Production-focused Lead Rigger with 14+ years in animation and game production. Experienced in technical QC, production-ready asset validation, cross-functional coordination, workflow improvement, and problem solving before work moves downstream. Interested in applying this production discipline and quality mindset to jewelry product development.

CORE STRENGTHS

Production workflow, handoff management, review loops, and downstream impact awareness
Technical QC, issue prevention, consistency checks, and rework reduction mindset
Cross-functional coordination with modeling, animation, technical, VFX, rendering, and production teams
Autodesk Maya, rigging pipeline, Python scripting, and Maya-based 3D modeling background

EXPERIENCE

Igloo Studio - Lead Rigger | Feb 2024 - May 2025

Led rigging development for animation/game production, including Dispatch (game on Steam).
Validated rig assets for consistency, usability, and production readiness before downstream use.
Resolved technical issues with animation and technical teams to protect schedule and quality.

The Monk Studio - Lead Rigger / Rigging Artist | May 2018 - Dec 2023

Contributed to XRB (BITKUB Metaverse), XPICE, Ninjala cinematic, and Talking Tom & Friends Season 4.
Performed QC on assets before production use and supported consistent technical standards across projects.
Worked across multiple teams to meet changing technical and production requirements.

Lani Pixels - Rigging Artist | Oct 2016 - Mar 2018

Prepared rig assets for production pipeline and checked technical readiness before handoff.

Picture This Studio - Rigging Artist | Feb 2013 - Sep 2016

Maintained asset quality and consistency across high-volume productions, including LEGO-related projects.

Freelance - 3D Artist | Sep 2011 - Jan 2013

Handled 3D character modeling, texturing, animation, and production support using Maya-based workflows.

Imaginax Co., Ltd. - Junior 3D Generalist | Jul 2010 - May 2011

Supported 3D production tasks as a junior generalist.

EDUCATION

Bachelor of Digital Media (Digital Art), Sripatum University | 2006 - 2010

PORTFOLIO

Portfolio available upon request: 3D production, rigging workflow, Maya-based production work, and QC process examples.
